# California 911 System

CA 911 Outages		
Northern California	Central California	Southern California
No 911 Outages	911 Outage	No 911 Outages

## Service Interruptions:

- No Service Interruptions Reported

## Remote/Community Isolations:

Per Cal OES 911 Branch as of 07/22/17 at 0936 hours:

On 07/17/17 at 1031 hours, the California State Warning Center (CSWC) was notified by the Cal OES 9-1-1 Branch that a landline telephone service outage has occurred in Mariposa County.

## **Landline Telecom Provider Service**

- Mariposa County: TDS Telecom has approximately 70 customers in Cathey's Valley using the Whispering Oaks DSA, without service intermittently since 7/20/2017 09:17am, due to the power outage and lack of access to refuel generators.
- The outage is due to the Detwiler Fire destroying a facility that feeds the Bear Valley remote. These facilities also feed the Mt. Bullion Exchange.
- TDS Telecom (Same as Hornitos Telephone) still has approximately 120 customer locations (or 129 access lines) without service since 02:55am 7/17/2017 due to the Detwiler Fire.
- Bear Valley and Hunters Valley costumers are back in service as of late afternoon 07/24/17.
- All crews are focused on Mt. Bullion. Service has not been restored to Mt. Bullion.
- Crews are still waiting for an order of cable.

## **Community Isolation, Adin, Modoc County (Final)**

Per Cal OES 911 Branch on 07/27/017 at 1234 hours:

- An outage was reported in Adin, Modoc County that affected 289 telephone lines. The outage was believed to be caused by a commercial power failure. The PSAP that handles Adin was notified of this outage.
- Update as of 07/27/17 at 1635: Frontier tried to restore the Adin remote from the Host in Burney and it failed. They dispatched a technician to check the power and span from the Adin remote office.

At 2138 hours, Cal OES 911 Branch reported the community isolation in Adin was resolved. Frontier advised the remote switch to Adin self-healed and restored service.

# WEATHER OF CONCERN

## Weather of Concern

- Northeast California: look for above average temperatures with highs in the upper 90s to over 100 for the rest of the week.
- **Active Weather Warnings, Watches and Advisories by County:**
- [http://www.wrh.noaa.gov/sto/brief/www\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php) - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

# **WEATHER SYNOPSIS BY REGION**

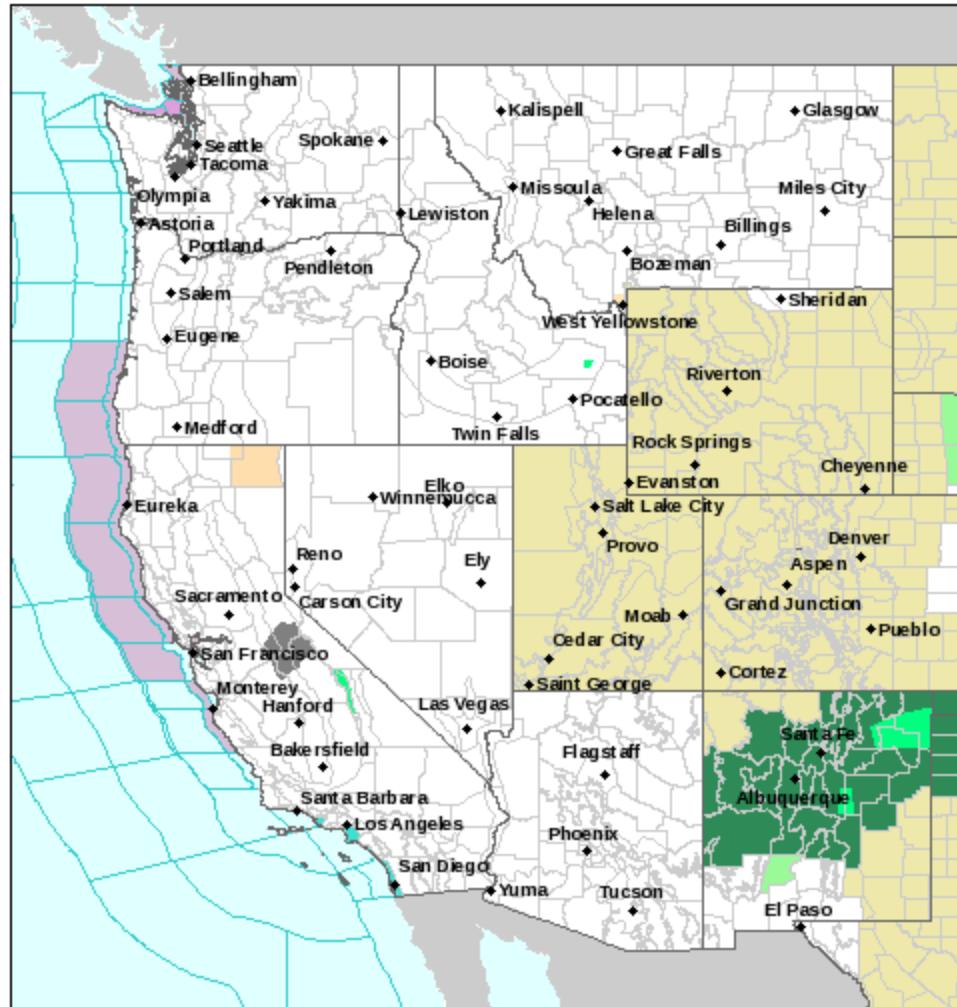

## **NORTHERN CALIFORNIA**

The low pressure system that's been along the coast is going to be very slow to move inland over the next few days. The most thunderstorm-favored areas are now in the very northwest corner of the state in addition to the rest of our northern and eastern areas. New fire starts will continue even though most thunderstorms will be on the wet side now. Higher pressure and a dry SW flow is anticipated for the weekend into next week with temperatures rising from the near normal conditions now to well above normal for the weekend and certainly next week as a very strong high develops and lingers over the region.

## **SOUTHERN CALIFORNIA**

High pressure over the Four Corners region will slowly expand westward which will result in a gradual warming and drying trend throughout the local district for the latter half of the work week. Daytime highs through Friday will approach the century mark across most of the inland valleys and humidity values are expected to fall into the teens. The warmer and drier weather may be short-lived however as another surge of monsoon moisture is expected to push into the region later in the weekend and into early next week resulting in cooler and more humid conditions. Scattered thunderstorms will again be possible over the mountains and deserts starting Sunday.
